Create a Windows virtual machine

Resource group :

Windows Virtual Machine :

 **Virtual machine**

|                            |                                                        |
|----------------------------|--------------------------------------------------------|
| Computer name              | test-vp-vm2                                            |
| Operating system           | Windows (Windows Server 2022 Datacenter Azure Edition) |
| VM generation              | V2                                                     |
| VM architecture            | x64                                                    |
| Agent status               | Ready                                                  |
| Agent version              | 2.7.41491.1095                                         |
| Hibernation                | Disabled                                               |
| Host group                 | -                                                      |
| Host                       | -                                                      |
| Proximity placement group  | -                                                      |
| Colocation status          | N/A                                                    |
| Capacity reservation group | -                                                      |
| Disk controller type       | SCSI                                                   |
| Capacity reservation group | -                                                      |
| Disk controller type       | SCSI                                                   |

 **Azure Spot**

|                            |   |
|----------------------------|---|
| Azure Spot                 | - |
| Azure Spot eviction policy | - |

 **Availability + scaling**

|                                          |   |
|------------------------------------------|---|
| Availability zone <a href="#">(edit)</a> | 3 |
| Availability set                         | - |
| Scale Set                                | - |

 **Security**

|                      |                |
|----------------------|----------------|
| Security type        | Trusted launch |
| Enable secure boot   | Enabled        |
| Enable vTPM          | Enabled        |
| Integrity monitoring | Disabled       |

 **Networking**

|                           |                                                                       |
|---------------------------|-----------------------------------------------------------------------|
| Public IP address         | 20.64.146.153 ( Network interface <a href="#">test-vp-vm2281_z3</a> ) |
| Public IP address (IPv6)  | -                                                                     |
| Private IP address        | 10.1.0.5                                                              |
| Private IP address (IPv6) | -                                                                     |
| Virtual network/subnet    | <a href="#">test-ubuntu-cus-vm-vnet/default</a>                       |
| DNS name                  | <a href="#">Configure</a>                                             |

 **Size**

|       |              |
|-------|--------------|
| Size  | Standard B1s |
| vCPUs | 1            |
| RAM   | 1 GiB        |

 **Source image details**
